JOURNAL OF MARINE SYSTEMS

Contents Volume 19, 1999

Contents Issue 19/1–3

Research Papers

Sensitivity of a pelagic ecosystem model to variations of process parameters within a realistic range
J.-N. Druon and J. Le Fèvre 1

Sea surface carbon dioxide off the Iberian Peninsula (North Eastern Atlantic Ocean)
F.F. Pérez, A.F. Ríos and G. Rosón 27

Predation impact of carnivorous macrozooplankton and micronekton in the Atlantic sector of the Southern Ocean
E.A. Pakhomov, R. Perissinotto and P.W. Froneman 47

Barotropic and baroclinic oscillations in strongly stratified ocean basins. Numerical study of the Black Sea
E.V. Stanev and J.M. Beckers 65

Evaluation of operational ECMWF surface heat fluxes: impact of parameterisation changes during 1986–1995
L. Siefridt, B. Barnier, K. Béranger and H. Roquet 113

Boundary currents over shelf and slope topography
P. Jacobs, Y. Guo and P.A. Davies 137

Nutrient controls on ecosystem dynamics: the Chesapeake mesohaline community
R.E. Ulanowicz and D. Baird 159

Modelling the pelagic nitrogen cycle and vertical particle flux in the Norwegian sea
O.J. Haupt, U. Wolf and B. v. Bodungen 173

Discussion

Satellite data and the seasonal and interannual study of the oceans: the use of the TIMELINE concept
P.E. La Violette 201

The TIMELINE concept: a possibility to use satellite data—but we should go further. A comment to the discussion paper: 'Satellite data and the seasonal and interannual study of the oceans: the use of the TIMELINE concept, by Paul E. La Violette'
P.M. Schlittenhardt 209

Comments on 'Satellite data and the seasonal and interannual study of the oceans: the use of the TIMELINE concept' by Paul E. La Violette
C. Millot 213

Reply from Paul E. La Violette to Claude Millot 217

Contents Issue 19/4

Research Papers

Annual uptake of atmospheric CO_2 by the Weddell Sea derived from a surface layer balance, including estimations of entrainment and new production
M. Hoppema, E. Fahrbach, M.H.C. Stoll and H.J.W. de Baar 219

Wave and sea level monitoring and prediction in the service module of the Global Ocean Observing System (GOOS)
G. Komen and N. Smith 235

Daily and seasonal variations of the partial pressure of CO_2 in surface seawater along Belgian and southern Dutch coastal areas
A.V. Borges and M. Frankignoulle 251

Wave data assimilation with the Kalman filter
A.C. Voorrips, A.W. Heemink and G.J. Komen 267
